### Hydraulic Fluid Under Pressure Injections Hazards

At work or at home we lubricate equipment, either with fluids (like hydraulic fluid) or with grease. When using grease gun attached to the nipple, we enforce pressure to supply grease. Or when inspecting equipment before use our body parts can be placed in close proximity to the hydraulic hoses under pressure. Those actions can cause a stream of hydraulic fluid or grease to enter parts of our body. It can be harmful or even deadly. At some installations, hydraulic fluid can be under 3000psi of pressure. Our bodies are not designed to be lubricated by hydraulic fluid or grease (maybe we would function better if we would).

Here is a link to a very good article about dangers of hydraulic fluid or grease entering our body parts: [Article](#)

Some on-line training courses which can help improving safety while working with hydraulic fluids:

[Fluid Injection Awareness](#)

[Hydraulic Safety in Construction](#)

[Hydraulic Safety: Exposure Level](#)

[Hydraulic Safety: High Risk Maintenance Level](#)

**Pipelines Training Support**

Pipelines are moving forward, and OSCTS provides full training support providing full range of on-line courses for workers and management.

### **Two most popular courses:**

[PCST \(Pipeline Construction Safety Training\)](#) - required from all workers involved with pipelines construction

[Ground Disturbance Level 2](#) - name of the program was changed to [Ground Disturbance 201](#) - required from most of the workers involved with pipelines construction

Above on-line courses and full range of courses for pipeline companies workers and management can be found at

<https://www.oscts.ca/product-category/pipelines-training/> and <https://www.oscts.ca/product-category/management-construction-industry/>

**Discount structure** - for every 10 PCST purchases on one order OSCTS will supply you with 11 (1 free login, \$100.00 value)

**OSCTS advantage** - we supply PCST PINs and logins usually within 15 minutes from time of order (if it takes longer, call 780-983-0155). When ordering from other suppliers usually you need to wait 2 to 3 days. OSCTS also supplies PINs and logins for PCST after hours and over the weekends.

---

## **On-Site Field Training**

OSCTS can supply trainer or team of trainers to your location for your classroom training needs in BC, AB, and SK.

Most popular courses delivered are:

- All 4 OSSA courses (Fall Protection, Confined Space Entry/Monitor, Fire Watch, EWP)
- Equipment training - Telehandler, EWP (OSSA and Non-OSSA)
- First Aid & CPR (AED included)
- Wildlife and Bear Awareness
- Air Purifying Respiratory Awareness and Qualitative and Quantitative Fit Testing
- If training you need is not listed above, please inquire and we will do our best to provide it. At least give us a chance to try.

To inquire, call **780-983-0155** or send email to [cezary.giluk@oscts.ca](mailto:cezary.giluk@oscts.ca)

---

## Classroom Training in Nisku, Edmonton and Surrounding areas

OSCTS delivers training in Edmonton, Nisku, and surrounding areas. It can be delivered at our training facilities at Edmonton South, or at your location.

You can find dates and times in OSCTS Training Calendar at

<http://www.oscts.ca/training-schedule/>

To book training or for more info, call 780-983-0155 or email [cezary.giluk@oscts.ca](mailto:cezary.giluk@oscts.ca)
