Atmospheric Hazards

Some people say: what you do not see will not kill you.

How far from the truth it is. The best unfortunate example can be asbestos. People are still dying in Canada and world wide many years after they were exposed to it. Another example can be silica. We breathe it with the dust and it can seriously harm our lungs harming us

That's why it is so important to work closely with industrial hygienist on the work site.

Some consider/call them a nuisance and treat like an enemy. Industrial hygienists have wealth of knowledge about what can harm us and how to protect ourselves from it. I worked closely with industrial hygienist on some work sites, and their input into improving health and safety of workers was invaluable.

OSCTS brings you **25 courses** on the subject of atmospheric hazards and they can be found at <https://www.oscts.ca/product-category/atmospheric-hazards/>

More Information

If you are interested in more information, or would like to discuss how OSCTS can be of assistance to your organization, call 780-983-0155, or send email to cezary.giluk@oscts.ca

Pipelines Training Support

Two most popular courses:

PCST (Pipeline Construction Safety Training) - required from all workers involved with pipelines construction

https://www.oscts.ca/product/pcst_online-pipeline-construction-safety-training-pcst/

Ground Disturbance Level 2 (Ground Disturbance 201)

<https://www.oscts.ca/product/bis-ground-disturbance-awareness-online/>

Full range of courses for pipeline companies supervisors and workers can be found at <https://www.oscts.ca/product-category/pipelines-training/> and <https://www.oscts.ca/product-category/management-construction-industry/>

OSCTS advantage - **we supply PCST PINs within 15 minutes from time of order**. When ordering from other suppliers usually you need to wait 2 to 3 days

OSCTS supplies PCST PINs during and after hours, and over the weekends

Classroom Training

Classroom training can be provided at the training facility at Edmonton South, or at your location at BC, AB, or SK
