Electrical Safety

Every year considerable number of workers are hurt or killed by electricity.

Mostly it is because workers are: untrained / unaware / unprepared / do not have proper procedures / are reckless

Training is one of the most important aspects of working with electricity. OSTs brings you 18 courses on the subject, including **latest 2018 revisions of ESTS (Electrical Safety Training System)** for Electrical and Non-Electrical workers in Canada and US.

Programs can be found at <https://www.oscts.ca/product-category/electrical-safety/>

More Information

If you are interested in more information, or would like to discuss how OSCTS can be of assistance to your organization, call 780-983-0155, or send email to cezary.giluk@oscts.ca

Pipelines Training Support

Two most popular courses:

PCST (Pipeline Construction Safety Training) -

required from all workers and supporting trades involved with pipelines construction

https://www.oscts.ca/product/pcst_online-pipeline-construction-safety-training-pcst/

Ground Disturbance Level 2 (Ground Disturbance 201)

<https://www.oscts.ca/product/bis-ground-disturbance-awareness-online/>

Full range of courses for pipeline companies supervisors and workers can be found at <https://www.oscts.ca/product-category/pipelines-training/> and

<https://www.oscts.ca/product-category/management-construction-industry/>

OSCTS advantage - **we supply PCST PINs within 15 minutes from time of order**. When ordering from other suppliers usually you need to wait 2 working days

OSCTS supplies PCST PINs during and after hours, and over the weekends

Classroom Training

Classroom training can be provided at the training facility at Edmonton South, or at your location at BC, AB, or SK
