

# Oil Sands & Construction Training & Safety Ltd

## **Very Merry Christmas and Happy New Year from Oil Sands & Construction Training & Safety.**

You are probably receiving messages from left and right not to drive while under influence, here are some reasons why:

- It is very expensive - cops will be all over the place testing and issuing tickets
- Money from the tickets go to City and cops' coffers - do not give them satisfaction
- It is cheaper to take the taxi once, than to take it for the long period of time if you lose your license
- Lawyers will charge your arm and leg
- Even if it was somebody's fault, if you test positive, you will be fined automatically
- It hurts every way if, due to the accident, you cannot work
- If you hurt somebody in the accident - this knowledge will stay with you to the rest of your life

**So have a Very Merry Christmas and Happy New Year and try to survive safely and in one piece**
