Keeping Personal and Company Certifications Up To Date

New Year has started and it is a good time to check if personal, or company certifications are up to date. There is nothing worst than to realize, that you cannot do your job, or get new one, because your certifications expired.

Most are good for 3 years, however some have different expiry date (e.g. PCST taken before January 1 2014 is valid for 3 years, taken on or after January 1 2014, is good for 5). Some certifications do not have expiry date

OSCTS brings you free resources to keep tab on your personal, or company, compliance with certifications expiry dates - Certifications Compliance Spreadsheet and Notes To.... It can be downloaded for free

from <https://www.oscts.ca/news/> It is based on expiry date, and by color coding will let you know if your certification expired, or will expire within 3, 6, 9, or over 12 month period. All we ask for is that you keep our company details on it

Hint

Do not carry original certifications with you, as if you loose them, sometimes it is impossible to recover each of them. Make copies and carry with you, or scan them to your computer or phone. This way you can always email them to whoever need them, or you can print yourself another set

More Information

If you are interested in more information, or would like to discuss how OSCTS can be of assistance to your organization regarding classroom or on-line training, call 780-983-0155, or send email to cezary.qiluk@oscts.ca

Pipelines Training Support

Two most popular courses:

PCST (Pipeline Construction Safety Training) -

required from all workers and supporting trades involved with pipelines construction

https://www.oscts.ca/product/pcst_online-pipeline-construction-safety-training-pcst/

Ground Disturbance

Level 2 <https://www.oscts.ca/product-category/pipelines-training/>

Full range of courses for pipeline companies managers and supervisors <https://www.oscts.ca/product-category/management-construction-industry/>, and workers <https://www.oscts.ca/product-category/pipelines-training/>

OSCTS advantage - **we supply PCST PINs within 15 minutes from time of order.** When ordering from other suppliers usually you need to wait 2 working days

OSCTS supplies PCST PINs during and after hours, and over the weekends

Classroom Training

Classroom training can be provided at the training facility at Edmonton South, or at your location at BC, AB, or SK
